3rd July 2000

Dear Mr [redacted]

Thank you for your recent enquiry requesting details on the unique Škoda Felicia Fun, I am delighted to send you the enclosed information.

Based on the successful Škoda Felicia, the Fun is a 2-seater and 4-seater Pickup and Cabrio that offers a wealth of unique opportunities for you. Simply release two catches and suddenly you have two extra seats. Built to Volkswagen quality standards, the Fun is robust and reliable with a splash of unmistakable style.

There are only 200 Felicia Fun's being imported into the UK during 2000, and these will arrive within the next few weeks. To avoid disappointment, please contact your local Škoda retailer as soon as possible for further details and a test-drive. Their details are as follows:

Slaters Skoda  
Market Street  
ABERGELE  
Clwyd  
LL22 7AL

Tel: 01745 828282

All Škoda's come with a high quality after sales service, including a 3 year unlimited mileage warranty and 3 year AA cover.

Should you require any further information on the Felicia Fun, or any other Škoda models, please do not hesitate to contact us on 0345 745 745. We'll be more than happy to help.

Yours sincerely

Margaret Beswetherick  
Customer Service Adviser

Standard Equipment	8
Technical Specification	9
Pricing	10

## Introduction

The Škoda Felicia Fun first appeared as a concept vehicle at the Geneva Motorshow in 1996. Its striking looks and innovative 2+2 design caused quite a stir. Public interest was at such an encouraging level that Škoda decided to put the "Fun" into production.

In late 1997 the Felicia Fun, in left hand drive format, started to roll off the production line. Launched on the home market in the Czech Republic at the end of 1997, and in Germany and Switzerland at the beginning of 1998. The Felicia Fun is now on sale in right hand drive in the UK in limited numbers.

Based on the Škoda Pickup, the Felicia Fun combines a sporty, 1.6 litre engine, colour co-ordinated leather trimmed interior, striking bright yellow exterior, a unique rear passenger seat folding down from the rear bulkhead, and a flexible load space. An appealing package for lifestyle and utilitarian purposes.

### Design and Specification

The Felicia Fun is a unique vehicle unmatched by any other vehicle available today. It's sporty, it's colourful, it's fun and it adds a whole new dimension to driving. It has been designed to offer a flexible transport solution, providing the choice to combine leisure pursuits with the more practical need to carry occasionally additional people, as well as transforming into a useable workhorse.

Available in bright yellow only, with colour matched door mirrors, bumpers and alloy wheels, and colour co-ordinated, leather trimmed interior, the Felicia Fun lives up to its name.

Not only is the Fun the perfect leisure vehicle but it is also a fully fledged pick up truck. Based on the Škoda Pickup, it has a full two square metres of cargo space. The load area can accommodate a one metre pallet between the wheel arches. The attractive and protective wooden ribbing and four useful lashing points add to its usefulness and beauty.

But with the pull of a handle the real fun begins. The rear wall of the cab folds outwards revealing two additional passenger seats! The rear-seat passengers get to ride cabrio-style in comfort and safety, protected by three-point seat belts, a roll-bar and headrests, while the driver and front passenger are protected from the elements in the cab.

## Interior

The Felicia Fun's interior is also original. The trim is in a jazzy yellow leather and grey upholstery combination showing the Fun's distinctive frog logo. This logo has its origins in the fairy story "The Frog and the Princess". The steering wheel, gear shift and sun visors are all covered in yellow leather and are complemented by the bright yellow instrument dials set in the light grey dashboard. The cut pile carpets are also grey.

The front passenger seat slides and folds forward for easy access to the storage area behind the front seats, and allows passengers access to the rear seats.

A driver's airbag, power steering and Grundig RDS stereo radio cassette are standard.

### Engine and Gearbox

The Felicia Fun gets its sporty driving feel from its 1.6 litre Mpi, Volkswagen Group petrol engine linked to a 5-speed gearbox with final drive ratio of 3.833. This engine has a 75bhp/55kW output and gives the Felicia Fun a 0-62 mph acceleration time of 12.5 seconds and a top speed of 100 mph. Average fuel consumption at 56 mph is 47.7 mpg.

### Warranty, Service and Maintenance

Like all new Škoda vehicles, the Felicia Fun is covered by a three year unlimited mileage warranty and three years AA roadside assistance. The body is protected by a 12 months anti-perforation warranty.

In addition, the new Škoda Felicia Fun comes with an exceptional 3-years or 45000 miles - whichever is sooner – servicing package, which is included in the purchase price. The package, which is a considerable benefit providing peace of mind and easier budgeting for the customer, is very comprehensive and can be transferred with the vehicle if the car is sold.

The servicing side of the package includes all parts and labour charges required to meet the manufacturer's service schedules. These are all specified lubrication services, oil changes, air, fuel and oil filter replacement and specified inspection services along with checks and adjustments.

Škoda's specified servicing intervals are as follows:

10,000 miles*	Oil change
20,000 miles/12 months	Annual inspection inc. oil change
40,000 miles	Gearbox oil change
24 months	Brake fluid renewed
36 months	Coolant renewed

\*If 10,000 miles falls close to 12 months, an annual inspection should be carried out

## Standard Equipment

### Exterior

Wooden ribbed loading area  
Colour coded bumpers, with front frame  
Roll bar behind cab  
Colour coded door mirrors  
Tinted glass
